

QUIET ALONG THE LINE.

No Disturbance Growing out of the Street Car Strike.

FEW SPECIAL OFFICERS SECURED

And Several of Those who are Sworn in Resign Early—No Cars Run at Night and None Outside the City Limits—The Mayor's Proclamation Seems to Have a Salutary Moral Effect.

There was practically no disturbance on the line of the street cars yesterday. In spite of the views of the officers of the union, the cars were pretty well patronized in those parts of the city where there was no danger of getting hit with a brick. The mayor's notice that parents and guardians will be held responsible for the acts of children seemed to have a salutary effect, as there were no obstructions placed on the track yesterday. A boy nine years old or so was brought to the city building in the forenoon, charged with placing obstructions on the track. He was lectured well, and frightened well, and then allowed to go home with his mother.

The mayor had only five applicants for positions as special policemen, in response to his advertisement for twenty-five. Of these, two resigned after serving an hour or two. They were named Keller and Maloney, the latter being the superintendent of the Workhouse. Last night four more men applied and were sworn in, making seven men in all in the service.

The regular police were on duty along the line in South Wheeling. No cars were run to Benwood or across the river, and all the cars stopped at dark. The feeling over on the South Side is practically unanimous for the striking employees and against the officials of the street railway company. This sympathy is shown in a practical way whenever a loop car is seen going up or down the South Side streets.

An INTELLIGENCER man at the corner of Jacob and Thirty-eighth streets yesterday afternoon saw ten cars pass up, and in the entire lot but four passengers were carried, three in one car and one in another; the others were entirely empty. As long as the old employees hold out, this sympathy, so much stronger in the southern portions of the city than elsewhere, will presumably continue, and as the passenger traffic to and from the South Side is perhaps normally the heaviest hauled, its entire suspension or withdrawal will be felt financially by the company.

Uptown yesterday the cars were quite as well patronized as ordinarily before the strike began. Several of the cars were filled with passengers. The bad weather made it necessary for people to avoid walking when possible, and the buses and wagons run by the strikers were also well patronized. A hordie line established just now would find an opening that would make its owner's fortunes in a short time.

THOSE DOUBLE TRACKS.

The Thirty Days Limit Will Expire Next Saturday.

About the last act of the last City Council, at its last meeting on the evening of January 24, was to order the Wheeling Railway Company to tear up its so-called double tracks extending on Jacob street from the head of Forty-third to Forty-fourth street, and put down a single track in the place of the switch or double track, whichever it is. The thirty days given by Council in which time the company must take up the track expires next Saturday, but many people think the company will not proceed and take up the tracks as ordered by Council. The company claims that the track in controversy is not a double track, but a switch, which they had a right to lay.

The company has not yet taken any action in the courts in relation to this matter, neither has any move been made to tear up the tracks. South Siders along Jacob street where the track is laid, intend to push the matter, and some have said that they would take off their coats and do the work of tearing up the obnoxious tracks. The outcome of the matter will be watched with interest.

A Minister's Good Fortune.

Rev. J. R. Miller, pastor of the First M. E. church of Big Run, Pa., writes the Lafayette, Ind., *Echo* as follows: "Overwork in the ministry last winter caused me to break down completely. I treated with several physicians without relief, and finally gave up and traveled eight weeks, doctoring all the time, and came home no better. I then began the use of Dr. Miller's Restorative Nerve, four bottles of which cured me, and I am now as well as ever in my life."

"THE WHITE SQUADRON" delighted a small audience at the Opera House last night. It is a very patriotic play, and the Americanism of the audience was emphatically demonstrated by the applause on both nights.

ALL of the clubs and hotel lobbies were popular resorts for the young men about town last evening, these havens of rest being frequented by large crowds until midnight, to escape the disagreeable elements raging outside.

PREPARATIONS for a production of the opera "Fra Diavolo" by the pupils of Riccardo Ricci, to take place in the early part of May, have been started. Yesterday the principal roles were assigned to a number of well known amateur vocalists.

THERE was a somewhat destructive blaze over on the South Side yesterday morning at 4 o'clock. A defective flue in Andrew Hohmann's residence, on Twenty-fifth street, back of Chapline, set the house on fire, and before it was extinguished, there was a loss of over \$500.

A GYPSY queen is traveling through the interior of Belmont county, over the river, with a small band, camping near the country towns and plying her vocation as a fortune teller. On a recent Sunday she took in \$27 for her tales of the fickle Goddess of Fortune, and yet they say the rural folks are not superstitious.

The Proposed Street Car Line.

A meeting was held at R. T. Howell's office yesterday, between the commissioners of Belmont county, the Bridgeport council and the Jolly Bros. Construction Company. The object of the meeting was to talk over the granting of a franchise to the construction company to build an electric street car line from the present terminus of the line on Bridge street over Bank to Pike street, and west over Pike street and the National park for two miles. The meeting adjourned to meet at St. Clairsville on next Friday evening, when the commissioners will know just what they can do in the matter. Bridgeport is unanimous and anxious to have the line built.

A New Firm Takes Hold.

THE public will be glad to learn that the existence of the well known and old established photography gallery of J. A. H. Parsons will be continued in the future. Negotiations have been completed between the Parsons estate and Mr. Clair O'Neill, a well known young business man of this city, and Melvin H. Sykes, who has been conducting the gallery for some time past, giving them the lease of the place for the future. They have also purchased all of the fixtures. The gallery will immediately be refurnished throughout, making it the finest in this section of

the country. Mr. Sykes will continue as operator, although he had made preparations to leave the city, having secured the influential support of a number of prominent public men to secure a position as government photographer. Since then, however, and during the deal, he secured an interest in the business which caused him to remain in the city. As an artistic photographer he stands at the head of the line, no finer work having been shown in any place in the country for style and finish. The new firm will probably take hold some time next week.

Charles F. Kotzebue Dead.

Charles F. Kotzebue, a prominent country merchant at Middlebourne, Tyler county, West Virginia, died at his home on last Wednesday, the 15th inst., at 7 o'clock a. m. His remains, accompanied by relatives and friends, have been taken to Malaga, Monroe county, Ohio, for interment. Those who knew him will always remember him as a genial kind hearted man. He will be greatly missed in the community in which he lived. He leaves a widow but no children.

Wait for the Big Show.

A manager who expends thousands of dollars in order that nothing will be neglected that might add to the enjoyment of his patrons certainly deserves success, and, as a rule, he generally gets it, if the public would endeavor to discriminate between responsible companies and those who possess no stability.

There are plenty of good shows, but, unfortunately, there are hundreds which are utterly devoid of merit. Now, any one can tell at a glance if they see a magnificent new store with massive plate glass windows, that it necessarily calls for a great outlay of money to erect it, and the stock in such a store is generally of the finest. The same line of reasoning to theatrical enterprises; for instance: when you see a show billed in the lavish and expensive manner that characterizes "She Couldn't Marry Three" company you can rest assured that there is money and push back of it. The beautiful, artistic pictorial lithographic work is the finest and costliest on the road. No lithographing firm would attempt that kind of work without having ten thousand dollars down to insure them from loss. This is only one of the many items of a great show, and the same good taste which provides this beautiful printing will neglect no other department of the show. So there is not a doubt that the production of "She Couldn't Marry Three" is the biggest show of the season.

Opera House February 20.

ROLLER skating is reviving very rapidly, and bids fair to again become one of our great national amusements. Most of the old skating rinks have been reopened and many new ones built, and all are doing a good business and are thronged nightly by pleasure seeking crowds. We are informed that M. C. Henley, the well known skate manufacturer of Richmond, Ind., who made a fortune in these goods a few years ago, is again turning them out in large quantities at his factory in that city. We see no reason why this innocent, healthful and graceful exercise should not hold its legitimate place among the best class of other athletic amusements, especially as it furnished indoor exercise and recreation during such inclement seasons of the year as preclude the enjoyment of other outdoor pastimes.

We heartily endorse the good judgment of the American public in adopting roller skating as a permanent and sensible amusement.—Adv.

A GOOD SHOW

We are always advising you to advertise, and to keep on advertising, but that does not cover the ground entirely. Of course, you should make your advertising effective—if an electric light be available, you should not use a "tallow dip" to light the path to your store.

What do we mean by that? Simply that the more conspicuous, the more artistic, the more attractive, the more original you make your advertisements, the more people will see and read them, and the more customers you will have to contribute to your cash-drawer.

Study effects in bold pretty type—good matter may be spoiled by ugly dressing. Seek to catch the eye by a display of good taste in the style and arrangement of your announcement.

Above all, let it be bold enough to be easily read. Don't vex a reader by vexing his or her eyes!
